

## Ergomover 1500

Product information and specifications

# Ergomover 1500

## ABOUT THE PRODUCT

Heavy lifting is a frequent cause of bad backs and aching muscles and joints. Ergomover solves the problem of transporting, for example drywall and other construction material.

The powerful 24V. transaxle ensures that all transport of materials can be done easily and without manual strain simply by pressing the buttons on the ergonomic control handle. The large battery capacity means that operators easily can work a full day before the machine needs to be charged via the integrated charger.

ErgoMover can be delivered with a wide selection of accessories, which make the machine ideal for transporting cans, drums, tubes or plates. ErgoMover is also available with practical turntable.
